Introduction

With FMPlus, you can easily prepare a wide assortment of management reports and billing invoices by selecting Reports > [report] > [category] from the main menu.

The FMPlus Reports Sample Guide provides an example of each report. However, it should be noted that each report has its own parameters, and it is up to you to determine which input controls make sense according to your business needs. In fact, there are over 500 variations of reports. Upon generating a report, you may view it within FMPlus, export it for use with a 3rd party software, or print it for your records.

Don't see the report you want? Syntech can customize compiled information to fit your requirements. For more information, contact Syntech at 1-800-888-9136, or email us at support@myfuelmaster.com.

NOTE This publication contains a sampling of FuelMaster® Plus software reports.

Chapter 1 Standard Reports

With the Reports menu open, you will be able to select one of the following Report types. Selecting from the list below will navigate you to the section for that Report type as well as it's subcategories.
